What makes DCU different?

Our methodology
English programmes at Dublin City University draw heavily from the communicative-based language tuition model, which focuses on the four main facets of the English language: reading, writing, listening and speaking. You will have many opportunities to communicate throughout the lesson with your teacher and classmates. Your teacher will use a variety of approaches to present and practise language and skills in real-world contexts.

Collaborative learning
Our classrooms and learning spaces have been specifically designed to facilitate comfort and communication, and give you variety in your learning day.

Learning and technology
Lessons are all face-to-face but teachers use the latest digital resources to ensure that your lessons are varied, up-to-date and dynamic.

Fast pace, maximum progress
Speaking English all day, taking part in our academic and social activities, and socialising with your classmates will all assist your progress. Every Friday you will take a short progress test to revise and assess what you have studied.

Customised courses
We offer a wide range of English courses which are complemented by your choice of workshops so that you can learn exactly what you need. Choose your English course and duration when you enrol and then choose your academic workshops when you are at DCU.

Small classes
We have small classes so that you can get the attention you need. Our maximum class size is 15 students, with an average of 13.

Study plans
Longer-term students draw up a plan of study with our senior teachers. We discuss your goals and help you plan your route to achieving them, including which external exam to choose. You will also have regular tutorials with your class teacher to discuss your progress and review your study plan.

DCULS Certificate
Your certificate is a record of your course and level of English upon completion, which you can show to prospective employers or higher education institutes.

University Clubs and Societies
Our weekly special interest classes, activities and clubs are the perfect opportunity to do the things that interest you most and which are the most relevant to you.

“The atmosphere is extremely friendly and comfortable. I have lots of friends from different countries now.”
